New customers should use this form to register CPU information for each processor and VM guest and host machine running Phoenix products. For each CPU, enter **the 4-digit CPU Type**, the **last 6 characters of the CPU Serial Number** and **the 3 to 16-digit Software Model Number**. Also specify the **street address** of the processor location. (You may enter "SAME" if the processor is at the street address above.)

Customers should use this form to make subsequent incremental changes. Indicate which processors are **additions** ("A"), **deletions** ("D"), or software model **changes** ("C") to our current list.

Please follow these instructions to prevent any delays in processing of your request.
